Cascade County Livestock Show and Sale Buyer Education Videos

What can I expect for yield of meat?

You are purchasing a live market animal that will be butchered and processed into meat cuts. The live animal weights will be listed on the auction sheets for each sale lot. Below is an approximate yield of meat for each species:

	Live Weight	Dressing % (Carcass Weight)	Yield % (#s of Boneless Meat)
Beef	1310	60% (786#)	36% (472#)
Swine	272	70% (190#)	50% (136#)
Lamb	131	50% (66#)	39% (51#)
Goat	80	50% (40#)	29% (25#)

What happens after I purchase one or more animals?

If you are attending our live auction, sale clerks will be available to settle your account at the sale. If you are joining us online via the Frontier Live auction site your invoice for successful bids will be emailed at the conclusion of the sale. Buyers can pay with check or credit card (with a 4% card fee). **Payments must be made by Friday, July 17th.**

All successful buyers must complete a butcher instruction sheet for each lot purchased. These instructions provide the processing details needed so your purchase can be delivered to the processor of your choice. Instruction sheets will be collected at checkout following the close of the sale.

Butcher Information

This year, Glacier Processing Coop in Columbia Falls will harvest and process a minimum of 25 beef, as well as harvest small market livestock to be brought back to Great Falls' local butchers.

The remaining beef will be harvested in Cascade County by local butchers. A limited number of small animals will be harvested locally as well, according to our agreements with participating butchers.

Market goat, sheep, and swine carcasses harvested at Glacier Processing Coop will be loaded onto a refrigerated truck and transported to Cascade County butchers for cut and wrap. Harvested and processed animals from Glacier Processing Coop will also be loaded onto a refrigerated truck and delivered to a central location for buyer pickup.

By selecting a butcher other than those listed, the buyer accepts full responsibility for coordinating carcass pickup and processing. The buyer is also responsible for any concerns regarding quality, quantity, timeliness, payment, or shipping costs for meat/animals processed outside of Cascade County.

Poultry and rabbit meat pens will be sold at the livestock sale. Local processing is available through the Cascade County producers.

The buyer of the market animal may choose from the following butchers:
